To help you select an appropriate training path, we have divided our authorised Adobe, Apple and Quark courses into three knowledge levels - **Essentials**, **Advanced** and **Professional**. These courses are scheduled 6 months in advance, giving you a good choice of dates and locations. We also offer a range of **Specialist Courses** - following a defined outline and run as closed courses, these are booked as required, enabling you to gain specialist knowledge at a time to suit you, for example, prior to the start of a project.
